

Ben Clark

Vice President

Securities & Guaranteed Loan Markets

My desire is to help my clients achieve their financial goals through tailored investment strategies with a dedication to integrity in every business transaction. I accomplish this by listening intently to my client's needs before providing recommendations. I refuse to do business with a "bond of the day" mentality. In such a dynamic market, it is imperative as a broker that I constantly search for value across multiple product categories. With my strong background in economics and the breadth of investments that Coastal has to offer, I can provide a level of comprehensive service that surpasses expectations.
