

Chip Holiman

Senior Vice President
Securities & Guaranteed Loan Markets

Since joining the securities industry in 1994, I have focused all my efforts on assisting the institutional clients I have had the opportunity to serve. Since all institutions have their own agenda that conforms to the goals they are trying to reach, I maintain the mindset of meeting their individual goals. With my years of experience in the securities industry, coupled with my work experiences at Foster Mortgage Corporation and Benjamin Franklin Savings Corporation, I am uniquely qualified to assist my clients in meeting their desired goals. In addition, my educational background and over twenty years of work experience, combined with Coastal's exceptional analytical capabilities, have enabled me to establish a long-term relationship with my clients.

Due to my active involvement in the government-guaranteed loan market, I have had the opportunity to speak at various state Small Business Administration conferences. Each customer I serve receives my full attention and best effort. When I invest myself in serving you, I also invest in my future in the form of repeat business opportunities from satisfied clients.

Education Background

Bachelor of Career Arts

Dallas Baptist University,
Dallas, Texas

Master of Divinity, BL

Southwestern Baptist
Theological Seminary, Fort Worth, Texas
