

Mike Weir

Managing Director

Securities & Guaranteed Loan Markets

Continuous improvement and striving for higher levels of performance are key drivers in my approach to serving clients. Since 1986, a dedication to excellence and these simple, yet powerful principles have guided me in my approach to meeting customer objectives and in building relationships with customers.

With extensive experience in municipals bonds, agency bonds, MBS, CMOs and corporate bonds, my loyal portfolio of institutional clients include banks, credit unions, insurance companies, registered investment advisors and fund managers. I joined Coastal Securities in 2006 in an effort to strengthen available expertise, products and services that would help my clients achieve greater return on investment.

Coastal brings the best of breed across the board and has been the nation's top pooler of SBA loans 4 of the last 5 years. Our professional traders, experienced management and outstanding products mean consistent value and results for our clients.

Developing winning strategies that work takes a roll-up-the-sleeves approach, commitment, and an intense hunger for results. It is my goal to provide the highest quality service with innovation and creativity, delivered with the honesty, loyalty, professionalism and dedication that every client deserves.
