

Peggy DeCora

Managing Director

Securities & Guaranteed Loan Markets

I strive to provide my customers with sound investment counsel. Because my entire career has been in finance, I am especially cognizant of the value of a good investment. I am also mindful of the fact that each institution has its own individual needs and portfolio parameters. No two clients are the same. I enable my clients to fulfill their investment needs by combining my experience with the exceptional analytical services and capabilities that Coastal Securities, Inc. provides.

Each customer receives my full attention and best efforts. When you invest with me, you are investing in a long-term relationship with customer satisfaction as the primary goal. I can bring you the right investment at the right time and at the right price.
